**INFORMATIONAL ITEM**

Following the BAR Advisory Group meeting, the Bureau of Automotive Repair will conduct a public workshop to discuss the proposed introduction of Permanent Diagnostic Trouble Codes (PDTTC) into the Smog Check Program. PDTTCs are OBD II Diagnostic Trouble Codes that cannot be erased without passing the readiness monitor that set the code in the first place. Including the PDTTCs into the Smog Check Program would reduce the likelihood that vehicles with identified defects can get improperly certified. Advisory Group members, meeting attendees, and the public are encouraged to attend. The workshop is scheduled from 2:00 p.m. to 4:00 p.m., or until the close of business. It will be Webcast at the following address:
